

FMTV Hydraulic Fluid

Don't be tempted to use the same hydraulic fluid in your FMTV's air-hydraulic power unit that you use in the hydraulic reservoir for the winch or crane. Use only MIL-H-5606 OHA in the air-hydraulic power unit. OE/HDO-10 or OEA cannot be used. They will cause system check valves to lock up. See Page F-3 of TM 9-2320-365-10 or TM 9-2320-366-10.

HMMWV Power Steering Pump

When the power steering pump, NSN 2530-01-168-7876, for basic and A1-series HMMWVs goes bad, you'll have to replace it with the pump used on the A2-series vehicles, NSN 2530-01-460-2439. The old pump is obsolete. Make a note of the new NSN for Items 5 and 21 in Fig 146 in TM 9-2320-280-24P-1. The part number is RCSK18330.

M43 Mask Battery

The mask blower for M43 aircraft protective masks won't be doing much blowing if NBC NCOs aren't careful storing the blower's BA-5093/U batteries, NSN 6135-01-216-9771. Batteries stored in unventilated, hot sheds or vans quickly lose their power. Store the batteries in a cool area if possible, or at least in an area that is ventilated.

DISTRIBUTION: To be distributed in accordance with the initial distribution number (IDN) 340312, requirements for TB 43-PS-Series.
